

Evron Foods Group Ltd

Background

Evron Foods is an independent privately owned company focused on the manufacture and marketing of quality frozen and chilled bakery products for the retail, foodservice, wholesale and food-processing/sandwich manufacturing market sectors. The company has manufacturing operations in Craigavon, Northern Ireland and at Pontypool, S.Wales.

Evron established its reputation as a pioneering company when it was the first to introduce the ever popular garlic bread to Northern Ireland back in 1984. From its first classic garlic baguette, Evron has developed an impressive range of successful products for different segments of the marketplace including frozen dough pieces, garlic breads, ciabattas and artisan breads and part baked French breads.

The company is already known for its comprehensive range of French Breads, both part baked and Thaw 'n Serve, which are designed as an ideal base for many fillers as well as a meal accompaniment.

It has continued to remain at the forefront of speciality bread manufacturing, introducing a wide-range of new flavours and bread
