

East Coast Seafoods

Chilled Fresh Frozen

Background

Established in 1988 by Martin & Eileen Johnston, East Coast Seafood's is situated on the outskirts of Ardglass and stocks at least 90 different species of fish and shellfish.

Over the years we have developed an extensive network of local fishermen and suppliers close to our premises in Ballyhornan next to the sea.

Our produce arrives to us fresh from the sea so our customers can enjoy the best quality we can provide.

The company specialises in exotic seafood and are also famous for their extensive range of smoked products. East Coast Seafood's can deliver throughout Ireland in their fully refrigerated transport.

Early 2017 saw the launch of a new e-commerce platform to facilitate the great many requests the company received from customers to purchase smoked salmon online.

In July 2017, East Coast Seafoods launched a new crab butter and a three-strong range of handmade pates including smoked salmon, smoked mackerel and smoked trout which are produced in the company's three smokers.

The Ballyhornan Smoked Salmon retail range is available online at <https://www.eastcoastseafoods.com/shop/>
