

Elmore Fish Ltd

Chilled Fresh Frozen

Background

At Elmore fish we are passionate about fresh seafood and our family's involvement in the fishing industry dates back to 1894.

We are very proud of our tradition as a company and as a long standing family run business.

Four generations later the business is still thriving as we strive to deliver the highest quality fresh and frozen seafood to our customers.

We use only the freshest, locally caught seafood which is sourced each morning from the ports in Northern Ireland as well as from Scotland and the West of Ireland.

We also import a wide range of fresh and exotic fish and seafood to satisfy the needs and requests of our ever increasing customer base.

In 2013 Elmore Fish added value to its business by diversifying into convenience meals with the launch of an innovative Restaurant Range that can be oven-cooked in just 15 minutes to provide a delicious meal.

The range consists of 4 tasty, easy to cook, oven ready, fresh seafood dishes including Cod Mornay, Gourmet Seafood, Sticky Salmon & Thai Pollock.
