

Henderson Foodservice

Ambient Chilled Fresh Frozen

Background

Henderson Foodservice is a local family owned business, supporting other local family owned businesses across Ireland. We support local suppliers as much as possible and connect them with our home-grown culinary talent, giving them the chance to see their products on the menus of some of the top eateries on the island. We're proud to supply Great Taste & Blas na hEireann winners, as well as Good Food Ireland & NI Good Food producers.

To give you an overview of the scale of our business; we supply over 4500 customers across 11 sectors with a growing range of 6500 products. Our lorries travel over 1,000,000 miles a year. Our recent awards include Investors in People Silver Accreditation, Deloitte Best Managed Company (2014,2015,2016) and the UTV Business Eye Company of the Year Award.

We own the Country Range brand in Ireland and exclusively supply UCC coffee brands and machines across the island.

We've been in business since 1978, so we understand just how competitive it is. We're large enough to offer our customers competitive prices and product ranges, but we're small enough to make sure their needs don't get lost in the midst of it all.

Product Range

Henderson Foodservice have one of the widest product portfolios on the island, spanning across fresh meat & produce, chilled, frozen, ambient, and non-food.

Our dedicated protein and coffee specialists are on hand to deliver expertise to our customers, helping them to really get the most from their food and beverage offering.

We work with some of the biggest brands in the world, and we're also proud to play a part in introducing local artisan products to the market. We recognise the importance of growth and development for local suppliers, and the impact this can have on the Irish economy.

We also own the Country Range brand in Ireland. From essential store cupboard items through to premium finished products, the Country Range brand provides professional caterers and chefs with a unique value for money proposition without the need to compromise on taste or quality.

Customers

Anywhere where food is served outside of the home, Henderson Foodservice will be there. We supply hotels, cafes, coffee shops, restaurants, fast food, quick service restaurants, deli counters, pubs, bars, schools, health & welfare, as well as contract accounts.
