

# Clearer Water

Chilled

## Background

Clearer is a naturally filtered pure Irish Water, from an aquifer deep beneath the North East Coast of Ireland, but it's not just our source that makes us different.

100% of our profits are split between creating jobs for disadvantaged local people here in NI, and funding clean water projects, so that people in developing countries can have great water too.

The Clearer approach brings a whole new level of transparency to Social Enterprise.

You can trace every bottle back to who packed, filled and checked it, its pH, weather conditions and what else was happening at Clearer at that time. We operate to the Triple Bottom Line principle. We believe that our reporting should focus on people and our planet, as well as profit.

By visiting our site, can see how we are spending our money, so that each time you buy Clearer, you know that your are contributing to something extraordinary.

## Product Range

Naturally filtered pure Irish Water
