

Hercules Brewing Company

Ambient Chilled

Background

Hercules Brewing Company was launched in February 2014 by Niall McMullan to revive craft beer production in the city and was the first craft beer company to open in Belfast in more than a century.

The company's portfolio now comprises Yardsman Craft Lager 4.5%, Yardsman Belfast Pale Ale 5.6%, Yardsman Session IPA 4.3%, Yardsman Original Double Stout, Yardsman American Pale Ale 4.7% & Yardsman Tropical Rye Ale 5%.

Yardsman's existing five-strong portfolio of brews are all hand-crafted and filtered using a unique technique featuring traditional Irish linen cloth.

In July 2017 Hercules launched Ireland's first craft nitro can stout - Yardsman Original Double Stout Nitro Can (4.3% ABV). The innovative packaging method, which qualifies the creamy Belfast Double Stout as a nitro stout, involves 'nitrogenising the can' by replacing CO2 with nitrogen. A traditional Belfast Double Stout which has a rich creamy mouth-feel and is perfectly balanced. It has a rich, dark colour with lots of roasted malty characteristics and delicate chocolate and coffee notes.
