

Elmgrove Foods Ltd

Chilled Fresh Frozen

Background

Elmgrove Foods specialise in 5th Quarter Offal products for Beef, Lamb and Pork.

Elmgrove Foods started with eight products back in 2008, but gradual progression along with continuous research and development, has meant the product range grew rapidly and now exceeds eighty different Beef, Lamb, Pork & Chicken products.

Elmgrove currently exports to various countries across the globe and is continuously researching and developing new products and introducing these into the market.

At Elmgrove Foods we pride ourselves on the presentation of our products and we adapt according to our customer requirements, so our strength is producing products that can go direct to the end user which sets us apart from our competitors.

We aim to supply the highest quality product, meeting customer product specifications in a way that are user friendly, and resulting in our products being highly sought in the market with an excellent reputation.

The growth of the company has been helped massively, by the strong allegiances that have been formed with suppliers which include some of the UK's largest abattoirs and boning factories.
