

Macahl Animal Health Ltd

Ambient

Background

Macahl Animal Health is the global distributor and manufacturer of Oralade, the leading oral re-hydration solution for pets.

We have over 40 years of experience and expertise in the pet industry in the supply and distribution of pet foods.

The company which is owned by Anthony Mackle is focused on providing high quality pet re-hydration solutions whilst fully supporting our global customers with exceptional service at all times.

At Macahl Animal Health our experienced sales, technical and customer support teams will be at your service at all times.

Macahl Animal Health = Making Animals Healthy

Feed, Don't Fast

Product Range

Oralade: a unique ready-to-use isotonic formula for dogs and cats which is suitable for day 1 feeding through gastroenteritis and before solid food is introduced. It is to help in the management of acute intestinal absorptive disorders, such as recovery from acute diarrhoea, and pancreatitis and post-GI surgery. The product is highly palatable and is available in 500ml for dogs and 150ml for cats.
