

Bawnbua Foods Ltd

Chilled Frozen

Background

Bawnbua Foods Ltd specialises in Primal and Value Added chilled and frozen meats.

We source only the best raw materials, for example with beef being sourced in the UK and Ireland while lamb comes from New Zealand, the UK and Australia.

It is a family run business which began as Eurostock Foods Ltd in Newry and is now located in Lurgan in County Armagh, Northern Ireland.

The business is ran and managed by 4 members of the White family who each have a great knowledge of meat and the meat manufacturing industry.

Employing over 200 people, the business goes from strength to strength with its state of the art production facilities and hard-working management team.

There is always something cooking in our innovation centre where our dedicated NPD team is eager to brainstorm new ideas for the next big product.

Whether it's a range of chilled ready to cook products or a frozen gourmet burger range, Bawnbua Foods will always have fresh new ideas.

We can also offer slow cooked sous vide products as well as mince, adding another dimension to what we have to offer at Bawnbua Foods.
