

Pure Roast Coffee

Ambient

Background

Lisburn based coffee roasting, packaging and distribution specialist, Pure Roast Coffee, provides a range of bespoke branding and packaging solutions for foodservice and wholesale markets.

Pure Roast Coffee's range includes: coffee beans, ground coffee, easy serve coffee pods, espresso pods, Senseo coffee pods, capsules, string & tag coffee bags and a complete range of auxiliary products.

Coffees are roasted in a patented convection coffee roaster called PureRoast as coffees are roasted on a bed of hot air in small batches, each batch of coffee roasted is carefully handled and monitored by computers. The company roasts every batch to order which guarantees that customers enjoy the absolute peak of freshness.

Pure Roast Coffee has flourished in partnership with some of the UK's largest coffee operators and online retailers.

In February 2022, Pure Roast Coffee secured a £1million deal will see the company supply its filter coffee, whole bean and String & Tag coffee bags for a major retailer in Great Britain.

The company invested almost £1million in its business which included an investment in research & development (R&D) in 2020 to create Northern Ireland's first string & tag coffee bag.
