

# Whitewater Brewing Company

Ambient Chilled

## Background

Established in 1996 on the 3rd generation family farm amidst the spectacular Mourne Mountains range in Northern Ireland, Whitewater Brewery still retains the passion and desire to brew beers with fantastic flavours.

Through the years, we have won awards and our beers are recognised on the world stage.

We started with a 800 Litre brew size and after twenty years, the next chapter has begun in our state-of-the-art, 15,000 sq ft brewery located at Castlewellan in county Down.

Our new brewery has the capacity to produce around 40,000 litres a month and has scope for further expansion.

We source spring water from the Mourne Mountains which is blended with American, Australian and New Zealand hops to create best-selling beers.

Most of our products are on sale in hotels, bars and off-licences in Northern Ireland and the Republic of Ireland. Additionally, we have won business in Europe and China & have been approached to consider supplying beers to the US.

The company produces bottle-conditioned beers and ales and also supplies products in kegs to customers throughout Ireland.
