

K & G McAtamney (Wholesale Meats) Limited

Chilled Fresh

Background

When Kieran & Gordon Mc Atamney opened their new, 18,500sq ft. purpose-built factory they brought with them a wealth of knowledge going back as far as 1953.

Kieran's grandfather opened a butcher's shop in Kilrea, County Derry and Kieran gained his early experience in that business. Having passed on his wisdom to Gordon, with this expertise under their belts they have set out to create a new concept using locally sourced beef, pork, lamb & poultry.

Continually developing innovative new products on a regular basis, their passion for great food and dedication to excellence has helped them to grow and become a serious competitor in the UK food industry.

K&G McAtamney continues to strive for perfection in terms of the range it offers. With a highly experienced team of employees ensuring that their products are of the upmost quality and service is professional, the company now employs upwards of 70 dedicated staff and is continuing to grow and prosper.
