

Quinfresh

Chilled Fresh

Background

Opening for business in 1942, JJ Quinn & Sons was founded by James J Quinn to fill an immense gap in the existing supply of fresh fruit and vegetables within Northern Ireland to the wholesale, catering and retail industry.

Almost 60 years later, Quinfresh was founded by our Managing Director Peter Quinn with the goal of providing our customers with fresh, convenient, high quality products designed to make their lives that little bit easier. Over the years our company has continued to grow from strength to strength and we are proud to supply many of the leading manufacturers, restaurants & retailers in Northern Ireland.

Now in its' third generation of being family owned and operated Quinfresh continues to endeavour to spearhead and monitor trends in the produce industry to ensure that we continue to meet the ever changing demands of our consumer base.
