

Carol's Stock Market

Chilled Fresh

Background

The only home-made, all natural stock available in Ireland.

I take quality, local and organic ingredients and slowly simmer for hours to produce all natural, traditional beef, free range chicken, vegetable stock and beef bone broth.

My broths are nutrient and collagen rich and full of flavour and are the perfect foundation ingredient for your healthy home cooked meals.

Humans have been making stocks for thousands of years, and I make mine the same way using nothing but beef and chicken bones, lots of locally grown organic vegetables and herbs and simmer for hours to create great flavours which can form the perfect base for soups, stews, sauces and gravies and many more delicious dishes.

I use only the best locally sourced ingredients to ensure I always product a premium stock. Great stock isn't just about great tasting meals.

My stocks and broths are naturally low in sugar and salt, contain no additives or preservatives and are gluten, dairy, soy and sugar free. Packed full of nutrition, they are among the healthiest ingredients you can use.
