

[Sea] Sug

Handmade Confection

# SeaSugar Handmade Confectionery

Ambient

## Background

SeaSugar was born of a love of creating new flavour combinations for hand pulled sweets. Using only natural extracts and essences to give a fresh true flavour, and simple natural colourings, SeaSugar delivers an ever expanding range of flavours in some popular and some more unusual combinations.

You won't find any information on our labels about additives and preservatives because we don't use any.

The ethos of SeaSugar is to give you the best possible version of a small treat to be savoured, content in the knowledge that you're not eating chemicals.

SeaSugar sweets are made completely by hand. From the moment sugar and glucose are added to the copper pan to the final label is placed on the bag. Every step is carried out with care and attention and an absolute love for the final product.

All of our sweets are made in very small 3 to 4kg batches and are free from artificial flavours, colours and preservatives, gluten free, dairy free & fat free. We use only 100% natural extracts, essences and colours, so the final product is bursting with flavour.

Customers can now order via an easily downloadable app.
