Natural Umber

Ambient

Background

Named after its distinctive colour, Natural Umber is unlike any apple cider vinegar you have tasted before.

It is raw, organic, unfiltered and contains mother of vinegar. However due to our unique fermentation process, it retains the natural sweetness of apples and tastes delicious.

Made using organic apples, Natural Umber is still naturally full of a complex structure of good bacteria and enzymes known as Mother, believed to bring enormous health benefits.

Many people take a few tablespoons of apple cider vinegar in their diet each day to help with conditions such as arthritis, high cholesterol, or to help them lose weight.

Our unique Apple Cider Vinegar is bursting with a naturally sweet, fruity flavour and can be used to compliment a healthy lifestyle.

There's no need for honey to sweeten, you can drink Natural Umber apple cider vinegar with just water, or add it to salads and sauces for a delicious apple-flavoured kick.

In September 2018, Natural Umber apple cider vinegar was awarded the Great Taste Golden Fork for the best food or drink from Northern Ireland at the Great Taste Awards.

Product Range
