

Causeway Coffee

Causeway Coffee

Ambient

Background

Causeway Coffee is a Speciality Coffee roaster importing and roasting the very best ethically sourced coffee beans from around the world. We are based in the village of Bushmills, N. Ireland, a short distance from the legendary Giants Causeway. We have eight signature coffees and we're passionate about showing our customers that brewing great coffee at home doesn't need to be difficult or expensive.

As a current Gold award holder from Blas na hEireann (Irish Taste Awards), the only coffee roaster in Northern Ireland to even win a medal, we feel well placed to capitalise on this and spread the message of quality coffee via the retail market across the UK. With a strong online market our current range of coffee compliments the huge trend of speciality coffee for the home customer.

Coffee culture continues to boom across the country, but people across the UK have had to adapt their coffee consumption habits as a result of the Covid-19

restrictions. According to research by Bewley's, the majority of coffee enthusiasts (83%) are now preparing their favourite cup of coffee at home. This presents us with an opportunity to supply stores/food retailers with our freshly roasted speciality coffee for this, increasingly discerning, market.
