Background

A new hot chocolate company on a mission to make the world's best hot chocolate while spreading love one mug at a time.

Hotties Hot Chocolate isn't just a delicious hot drink but a way of connecting with others. A way to connect with your Hotties!

It's for cold winter nights, late night dmc's, a treat on a random weeknight or just a tasty alternative to silly hipster filter coffees.

We want to use Hotties to spread the love. That means every bag or box is either a gift or for sharing!

We make our chocolate here in the UK using ethically sourced cocoa beans. It's real chocolate making it creamier, richer and more luxurious drinks than those made with cocoa powder.
