

# Belfast Coffee Roasters

Ambient

## Background

Established in 2018, Belfast Coffee Roasters are a quality-focused speciality coffee roaster. Based close to the centre, in what was the heart of 19th Century industrial Belfast, we are only a stone's throw away from the city. We are driven to be as ethical and sustainable as we can be.

We focus on sourcing quality coffee, fostering relationships with like-minded farmers, producers, and exporters to ensure traceability, transparency, and sustainability and to showcase the best tasting coffee we can.

## Awards held

- Irish Quality Food Awards 2024: Silver for Belfast Coffee Roasters Ethiopia Bale Mountain in the Hot Beverages category
