

Based Food Ltd

Ambient

Background

Working with my dad, a chef of thirty plus years, we developed our range to bring tasty, easy to use, plant based, allergen free food to you. Whilst developing our mixes, we also fancied something a little more savoury, so we added a pancake mix and a French toast mix. Two staples in our house growing up.

All our mixes are allergen free. We are a completely allergen free facility. we ensure no allergens are brought into our facility, so there is no possibility of them being sent out. We champion inclusivity, be that due to lifestyle choice, or allergies, we are here for you.

We are determined to be as sustainable as possible, with fully recyclable packaging, as well as the majority of our ingredients being sourced from the UK and Ireland, so both you and I know where everything is coming from.

Product Range
